SUBJECT: -RIVERS SITUATION AND QUALITATIVE FLOOD FORECAST:

I: HYDROLOGICAL SITUATION at 0600 PST:

The River Kabul at Nowshera is in a low flood level, while all other Major Rivers are flowing normally and are expected to continue in their current state.

II: METEOROLOGICAL FEATURES:

- a. Yesterday's trough of the westerly wave over the northern parts of the country, has moved away eastwards.
- b. Yesterday's cyclonic circulation has moved west-northwestwards and today lies over South Madhya Pradesh and is likely to move further westward during next 24-hours.
- c. At present moisture incursion of light to moderate intensity from Bay of Bengal is penetrating upper part of the country upto low level.
- d. Weak seasonal low lies over North Balochistan.
- e. Current soil conditions within the catchments of the Major Rivers and hill torrents are slightly wet.
- f. There is no probability of cyclogenesis over Bay of Bengal and Arabian Sea during the next few days. However, monsoon trough is likely to become prominent from 26th of June.

III: WEATHER FORECAST FOR NEXT 24-HOURS:

Thunderstorm/rain of light to moderate intensity is expected at scattered places over the upper catchments of all the Major Rivers along with Khyber Pakhtunkhwa, Islamabad and Rawalpindi Division. Isolated thunderstorm/rain is also expected over Sargodha & Gujranwala Divisions. Mainly dry weather is expected over rest of the country.

IV: WEATHER OUTLOOK FOR NEXT 48 HOURS:

Mainly dry weather is expected over the most parts of the country.

V: RIVERS CATCHMENTS RAINFALL RECORDED (MM) DURING LAST 24 HRS (UPTO 0800 PST):
